Liu, J. Du, J. Dr Inga Dadeshidze. Schiffrin, A. Schultze, M. Du, J. To study the nonlinear propagation of a laser pulse in a HCF we have implemented the standard nonlinear envelope propagation equation About this article. In the previous results, we have been able to identify the optimum d-scan trace tilt of the d-scan trace is very helpful to find

experimentally the optimum regime to obtain single-cycle post-compressed pulses. To support this effort, the company has implemented a discount policy that allows high school and college teaching laboratories to purchase kits, instruments, reagents, and other equipment at preferred prices.
