Meesta and his adoptive mom, Kimberly, are on a mission to spread the message that regardless of where your story begins, who you are, or what makes you special and different, everyone deserves a happy ending! The muscles are transected, and finally, the bone is sawed through with an oscillating saw. It utilizes many approaches such as goal setting and problem solving techniques. No approach to amputation can be considered successful without some resolution of the issue presented by the loss of skill, job, and livelihood. Such individuals seem to make an excellent adjustment, assuming of course that the malignancy has been cured [20]. The reaction is usually one of realistic acceptance and cooperation with the treatment team. This is a fabulous book for all children to read.
