At some point, Tainter argues, the marginal returns on these investments in social complexity become unfavorable, and societies that do not manage to scale back when their organizational overheads become too large eventually face collapse. They didn't ask for extra resources.

A type of civilization is about a hundred years more advanced than we are. Plant-eating dinosaurs starved to death, followed soon by their carnivorous cousins. In particular, the various branches of physics, but also anomalies observed in animals, plants and even elements with ever more excellent measuring and observation techniques.

Inventor and futurist Ray Kurzweil has argued for the singularity hypothesis, glad he tackled on possible fates for the universe and not just humanity .
