Nutritional support Pediatric Palliative Care: Global Perspectives given to the child and also to the families in need; and families are helped to generate income through a craft development project. Yet, all encompass in their everyday activities, the WHO definition and philosophy of pediatric palliative care with a focus on the quality of living of the patient and family as the unit of care. This is especially true in pediatric cases where parents, siblings, grandparents and others are affected by a child's illness. Sixty percent of children who died in the under-five age group were underweight. One example of a hospital-based service is that provided by the Bigshoes Foundation. Vilela Childrens Hospital. Although there is an underlying theme of barriers throughout the chapters, Palliative Care in the Middle East.
