This novel deals with what has been coined "inner space"
rather than the more outer-space oriented, Le Guinesque
fantasies. Wonderful language and weird world building. Great
little book!

I re-read it in my 50's and enjoyed it just as much. When I read this book I thought the
ending is set far in the future, but the book is reassuring
about man's ability to adapt now, today, to a new life
anywhere on earth in this case, at the bottom of the ocean.
Suppose we do get off this rock and into inter-stellar space
